

## Let's Make Plans! Fall 2019

This program is designed to enhance social engagement with peers in a fun and supportive environment. Participants will plan activities with their peers in a small group setting, and will learn skills associated with exploring personal interests, planning, problem solving, transportation planning, and collaboration.

This program is taught by Aja Masters, who has been a Teaching Assistant at the DSRF for 4 years, as well as the Summer Program Coordinator. Aja graduated from SFU with a major in Psychology and a minor in Learning and Developmental Disabilities. Aja will be assisted by young adult volunteers to foster an inclusive atmosphere that reflects the interests of young adults and to model pro-social behaviour.

The focus of the course is on having fun with peers while planning simple activities; participants who require one to one support must provide this support. Participants will have the opportunity to make new friends and we will encourage group members to practice connecting with friends for activities outside of the program. The group will plan and engage in weekly group activities at the DSRF and plan for activities in the community that are easily accessible from this location.
